

Minh Anh Tran

Los Angeles, CA | mptran@usc.edu | (+1) 213-771-2248

EDUCATION

University of Southern California

Expected graduation: May 2029

Major: Neuroscience

Relevant coursework: BISC220, CHEM105A, CHEM105B, PSYC304, QBIO305

Cumulative GPA: 3.96/4.00

RESEARCH EXPERIENCE

Keck Graduate Institute - Summer Undergraduate Research Experience (SURE)

Jun 2026 - July 2026

Research Assistant - Bhattacharya Lab

- ❖ Optimized Western Blots to identify and analyze protein expression changes (GluN2B, Alpha-7, PSD-95) in alcohol-treated mouse cerebellum tissue.
- ❖ Built upon the lab's novel preliminary findings on alcohol-induced protein downregulation by troubleshooting experimental protocols for progress reports on the role of ethanol in Alzheimer's Disease-Related Dementia

ThinkNeuro - Software Engineering Practicum

Jun 2026 - Present

Intern

- ❖ Leveraged Git for version control, branching strategies, and peer code reviews to maintain codebase integrity in a collaborative production environment

ThinkNeuro - Bibliometric Research Internship (BRI) Spring Intensive

Jan 2026 - Apr 2026

Intern

- ❖ Conducted bibliometric analysis on SSRI and Benzodiazepine co-prescription under the academic guidance of faculty and physicians from Harvard Medical School, Stanford, School of Medicine and USC
- ❖ Used R Programming to synthesize a graduate-level abstract and research poster

USC Neurotech - Sleep Classification Project

Nov 2025 - Apr 2026

Data Analyst & Researcher

- ❖ Co-authored a research poster translating complex coding methodologies into clear scientific communication, supported by cross-study analysis using R to compare project accuracy against peer-reviewed literature
- ❖ Presented research poster at the 2026 California Neurotechnology Conference

National High School Journal of Science

Jun 2024 - Jan 2025

Independent Researcher (Neuroscience Literature Review)

- ❖ Published a peer-reviewed paper, "The Role of the Neural Mirroring System in Human Infant Imitation," under the mentorship of a Neuroscience Ph.D. student from the University of Michigan Ann Harbor.

AWARDS & ACTIVITIES

Alliance of Arts and Literature Associations of Vietnam

Nov 2023

Awarded Poet & Author

- ❖ Secured First Place for "From Within", a 100-poem original contemporary poetry collection.

Brown University - Pre-college Summer Course

Jul 2023

Neurobiology Student

- ❖ Analyzed complex literature on olfactory aversive conditioning during sleep (Arzi et al., 2014) into a social media infographic to promote public scientific literacy
